

A winter landscape featuring a dense forest of snow-laden evergreen trees in the foreground. The trees are heavily coated in white snow, creating a textured, blue-tinted appearance. In the background, misty mountains rise above a layer of low-lying clouds or fog, with the sun casting a soft, golden glow on the scene. The overall atmosphere is serene and cold.

# Зимний пейзаж

2018. B

Абэ Тошиюка

A winter landscape painting. In the foreground, several birch trees with characteristic white bark and dark lenticels stand prominently. The ground is covered in a thick layer of snow. In the middle ground, a body of water, possibly a lake or a wide river, is visible, reflecting the light. The background shows a hazy, snow-covered landscape with distant hills or mountains under a pale sky. The overall style is soft and atmospheric, typical of a watercolor or oil painting.
